

The Molecular Histology Center (MHC) is a collaborative effort based at the Environmental and Occupational Health Sciences Institute (EOHSI) on the campuses of the UMDNJ-Robert Wood Johnson Medical School and Rutgers, The State University of New Jersey located in Piscataway, NJ. The MHC supports academic and industrial researchers in performing a variety of quantitative and qualitative tissue section-based assays. The dedication of this center to a defined set of challenging techniques provides for efficiency and expertise to ensure reliable results and rapid completion of projects. Services include in situ hybridization histochemistry, immunohistochemistry, stereology, and receptor autoradiography.

Services and Pricing

Pricing is tailored for each project.

Director of Facility:
Eric Richfield, MD, PhD
