Interim DIR Student Advisory Committee Meeting Form

The purpose of the Student Advisory Committee is to guide the DIR candidate during the period of his DIR research project. The Committee consists of the project advisor (mentor), a DIR Committee Liaison and one other faculty member who has expertise in the field of the proposed project. The Committee shall meet with the Student during the period between the initial meeting and final evaluation to discuss the research progress and assist the student in completing the DIR program. The student is encouraged to meet with the committee as need but at a minimum annually during the project period. This original completed form must be returned to the Office of Research & Sponsored Programs.
